ICS 4280-88  
16 September 1988MEMORANDUM FOR: Douglas George  
Deputy Director for Requirements and EvaluationFROM: [Redacted]  
Director, Planning and Policy Office

SUBJECT: FEMA Request for Intelligence Support

1. As you are aware, Julius Becton, Director of the Federal Emergency Management Agency (FEMA), requested assistance from the Intelligence Community in a memo dated 9 June 1988. Subsequent to this memo, Lt Gen Heinz met with LTG Becton on 20 July where FEMA briefed various members of the Intelligence Community Staff on its various missions and distributed a Statement of Intelligence Interest (SII) on their NATO responsibilities. [Redacted]

2. FEMA has continued to contact our office regarding the status of the requests made in its June memo, some of which involve participation in the requirements and priorities processes. In addition, FEMA is seeking feedback on its SII on NATO activities in order to develop SII's for their other various missions. I would appreciate your expeditious review of these issues so that we can be responsive to FEMA in a timely manner. [Redacted]

The "we" in the last sentence is  
the IC Staff - PPO has no interest in  
becoming a focal point for FEMA-related  
ICS activities. [Signature]
